DETAILED ACTION

The submission of amendment filed on 10/03/2003 is acknowledged. At this point claim 4 has been amended and the remaining claims left unchanged. Thus, claims 1-4 are at issue in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Dougherty **Reg.Num. 19576** on 03/14/2005.

In Abstract (line 2) delete "comprised" and insert -having-.

In claim 1 (lines 19, 21 and 21) delete "said lamp rods" and insert -said lamp rod-.

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

the allowability resides on the overall structure of the device as claimed at least in independent claim 1, and at least on part, because of the following:

Art Unit: 2875

the prior art to **US/6,502,966 to Wu** disclose (Fig. 1) a ceiling lamp junction box structure having a plurality of portals [D1] arrayed along its circumferential surface, a plurality of lamp rods [2] and a latch mechanisms [1].

However, the instant application recites a a ceiling lamp junction box having a swivel block movably disposed in the portal at the side of junction box and a lamp rod fastened to the swivel, pivot holes formed on the top surface at the lateral edge of each portal, a carrier mount aligned with the pivot holes and having a reticulation prefabricated at the center and a coupling section on each of its two ends, thereby providing for the insertion of a pin to movably dispose the swivel, a hitch rod disposed against the inner edge of the junction box to provide the positional engagement of the latch mechanism.

This is not found in the prior art of record therefore the claims are seemed patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
